

Member Business Account Rate and Fee Schedule

NATIONAL CREDIT UNION SHARE INSURANCE FUND

Member accounts in this Credit Union are federally insured by the National Credit Union Share Insurance Fund. Visit NCUA.gov for information regarding limits and conditions for coverage.

MEMBERSHIP REQUIREMENTS:

Businesses who meet our membership eligibility requirements may join the Arizona Federal cooperative by opening a Business Checking with a minimum of \$20. Our par value membership share is \$25 and is a requirement for participation in credit union services such as checking, loans and investments.

Dues for membership will be assessed to your account monthly. Members who allow their account to draw negative must correct the deficiency within 30 days or membership is terminated. If the balance drops between zero and the required membership share of \$25, members must restore the balance in the account to \$25 or more within 90 days or membership is terminated.

Former members who desire to restore membership and rejoin the credit union cooperative must meet the membership eligibility requirements in force at the time of rejoining, and fund the account with the required minimum balance.

DIVIDENDS

Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period, and are not guaranteed. Dividends are calculated by the average daily balance method, which applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period. Dividends will begin to accrue on the business day you deposit non-cash items (e.g., checks) to your account. Dividends are posted at the close of business on the last day of each dividend period and are available for withdrawal the following business day. Dividends are paid as set forth above. We may change the rates, balance, tiers, and fees at any time and will notify you as required by law. The dividend declaration date is the last day of a dividend period.

DIVIDEND RATES

Checking: Checking rates are tiered based on your average daily balance. Please refer to the table for specific rate information on each tier. If your average daily balance is between \$1,000 and \$9,999.99, the rate your account will earn is the lowest

anticipated dividend rate for checking accounts. If your average daily balance is \$50,000 or greater, your account will earn the highest anticipated dividend rate for checking accounts.

Checking & Money Market Accounts: You must maintain a minimum average daily balance of \$1,000 in your checking or money market account to receive dividends. Dividends will be compounded and credited monthly. The dividend rate and yield may change every month as determined by the Board of Directors.

Savings & Sub Share Accounts: You must maintain a minimum average daily balance of \$25 to receive dividends on savings and \$100 for subshares. Dividends will be compounded and credited monthly. The dividend rate and yield may change every quarter as determined by the Credit Union Board of Directors.

Money Market Accounts: Money Market rates are tiered based on your average daily balance. Please refer to the table for specific rate information on each tier. If your average daily balance is between \$1,000 and \$9,999.99, the rate your account will earn is the lowest anticipated dividend rate for money market accounts. If your average daily balance is \$250,000 or greater, your account will earn the highest anticipated dividend rate for money market accounts.

Term Share Certificates: Minimum to open is \$500 for Share Certificates. Dividends accrue from date of deposit and are compounded and credited monthly based on the daily balance. Withdrawal of dividends prior to maturity will reduce your earnings. Early Withdrawal Penalties for Certificates are imposed: The withdrawal penalty is based on the amount withdrawn with a minimum penalty of \$25. Certificates with terms of less than 12 months, the penalty is 1% of the amount withdrawn or \$25 whichever is greater. Certificates with terms of 12 months to less than 48 months, 2% of the amount withdrawn or \$25 whichever is greater. Certificates with terms of 48 months or greater, 3% of the amount withdrawn or \$25 whichever is greater. Withdrawals which will result in a balance less than the required minimum must close the certificate. Penalty amounts may exceed earnings. Dividends are fixed for the term of the certificate. Certificates which renew automatically will receive the rate in effect on the date of renewal. There is a 10 day grace period at maturity. Non-renewals do not earn dividends after maturity.

Impact of Inactivity: Subshares with zero balances or balances below the required minimum will be considered inactive if no member initiated transactions have occurred for 90 days. Inactive subshares, which include Checking and Money Market accounts, are subject to closure and the balance, if any, will be transferred to the savings account.

Member Business Account Rate and Fee Schedule
